\$11 MILLION PLANNED FOR BURNSVILLE STREET, UTILITY PROJECTS IN 2018

In March, the Burnsville City Council will consider a number of street projects for construction in 2018. These projects, estimated at \$11 million, are based on the City's five-year Capital Improvement Plan. The plan prioritizes improvements based on age/condition of the roadway and replacement schedules of utilities under the street.

Most projects will begin around mid-May, and are planned to be substantially completed by Labor Day. Neighborhood meetings will be held in January for affected residents, who should have already received notices.

Projects planned for 2018 include:

Street Reconstruction

Typically includes complete curb and gutter replacement, road reconstruction, water main replacement, storm sewer repairs/upgrades and sanitary sewer repairs.

- Burnsville Heights Area (*west of County Road 5*)

Street Rehabilitation

Typically includes spot curb repair, milling the top two inches of pavement and placing a two-inch asphalt overlay.

- West Frontage Road (*Highway 13 & I-35W*)
- Travelers Trail (*Highway 13 & I-35W*)
- Morgan Avenue (*south of County Road 42*)
- West Preserve Boulevard (*west of Southcross Drive*)

Street Reclamation

Typically a hybrid of rehabilitation and reconstruction. Reclamation is a cost-effective way to upgrade a street that is too deteriorated for rehabilitation, but has existing utilities and curbs that generally do not need total replacement.

- Regent Area (*west of I-35W*)
- River Hills Area (*north of Highway 13*)
- 123rd Area (*north of Burnsville Parkway*)
- Commonwealth Drive (*west of County Road 11*)
- Highland Upton Area (*west of Burnsville Parkway*)

(more)

Maintenance Overlay

Similar to street rehabilitation, overlays consist of spot curb repair, milling the top 1.5 inches of pavement and placing a 1.5-inch asphalt overlay. This project will be considered if the City receives favorable bids on its other street projects.

- Eagle Ridge Area (east of Nicollet Avenue)
- 150th Street (west of County Road 5)
- Grand/Crystal Area (east of I-35)
