BURNSVILLE CONTINUES WORK TO HELP THE POLLINATOR POPULATION

Workshop on How to Attract More Pollinators to Fruit and Vegetable Gardens Aug. 9

Bees, butterflies and other pollinators are on the decline, and they need help!

Participants in this workshop will join expert and award-winning author Heather Holm for a fascinating discussion on the importance of bees and other insects in pollinating the fruits and vegetables we grow. The seminar will also touch on how to use native plants to help support local pollinators, and how to attract beneficial insects that help control garden pests.

What: Workshop: Attract Pollinators to Your Fruit and Vegetable Garden
Who: Burnsville Residents Only
When: Thursday, Aug. 9 | 6:15 – 7:15 p.m.
Where: Burnsville City Hall, 100 Civic Center Parkway
Cost: FREE
Register: Register online at www.burnsville.org/nativeplants

Space is limited. Please register in advance.

Heather Holm is recognized as a top expert on pollinators and has traveled throughout the midwest and northeast to educate audiences about the fascinating world of bees and other pollinators.

Register online at www.burnsville.org/nativeplants. For more information on the event, call the City's Natural Resources division at 952-895-4543.

City of Burnsville Press Release

Cutline: Bumblebee “buzz” pollinating blueberry flowers. Native bumblebees are important pollinators of many backyard vegetable crops.
